Transcript of 39th AGM of Quest Capital Markets Limited held on 02nd July, 2025 at 11.00 a.m. through VC/OAVM

Huh.

153

00:35:37.520 --> 00:35:53.600

Good morning, respective chairman. Board of directors company secretary fellow members joining at thirty ninth AGM of West capital markets Limited. My name is Ashik Marcotto, joining from.

154

00:35:55.880 --> 00:35:58.760

My steam gratitude to our compensate sectory and.

155

00:36:00.480 --> 00:36:20.280

Gardwal for sending me the hard copy of report very well in advance and allow me to speak. Ma'am, one request next year possible keep some confirmation of the speaker members because every company is doing that. This is my heartly request to you. So.

156

00:36:21.960 --> 00:36:40.960

Initial speech of our respective chairman is very optimistic because I think report it is a ninthly reduced to five point five percent and government infrastructure spending as well as income tax relips will be both benefited to my company's performance. About financial performance.

157

00:36:41.360 --> 00:37:01.720

Is nicely achieved because there is very tarbulence in economies, low economy other than capital markets volatility. Apart from this, we are getting the dividend to please two point five zero five share and I must be highlighted my company is the data three company. Also a book value is near about one thousand six hundred.

158

00:37:02.560 --> 00:37:22.200

Rupees and beta value is zero point seven five less than one. That is less volaticity at present. Also my market capitalization here about three hundred eighty crowds and good promoter holding near about seventy five percent. Overall is a very good company. Apart from this, I have just seen some.

159

00:37:22.280 --> 00:37:23.280

Brief views which you'd like to share.

160

00:37:25.520 --> 00:37:25.720

I think.

161

00:37:28.840 --> 00:37:48.160

CRA, I noticed near about reduced to one hundred twenty two point forty percent against one hundred thirty seven point fifteen percent. Please share your thoughts for a reduction this and also liquidity and LCR also twenty eight point sixteen against six point thirty one means that latest capital available for lending.

162

00:37:49.240 --> 00:38:09.080

And potentially impacting growth and profitability and also positive ability to meet short term obligation. Share your thought about this. I noticed our exposure in capital market near about one thousand three hundred ninety two groups. So I think the capital market at present very.

163

Transcript of 39th AGM of Quest Capital Markets Limited held on 02nd July, 2025 at 11.00 a.m. through VC/OAVM

00:38:09.680 --> 00:38:21.840

Olatile position due to very global impact in facing in our capital market. So any plan in treasury opposition other than secured investment, share your thoughts.

164

00:38:23.240 --> 00:38:40.120

Also mutual funding exp mutual fund exposure near about two thousand five hundred eighteen point twenty lakhs inputed unquoted mutual fund. And I think mutual fund investment is too subject to market risk. So maybe think about high rated.

165

00:38:43.640 --> 00:39:02.120

Companies investment. So that is very affair. And sir future any form planned for business diversity applications other than investment, share your thoughts. Also, our shareholder reording policy because the company is a very good company and my, business.

166

00:39:02.120 --> 00:39:11.560

Business company's business expansions. Maybe a good effect for shareholder also. This is my view. And, what about our.

167

00:39:13.960 --> 00:39:17.040

Rationalization? Because I noticed, we have only three.

168

00:39:18.760 --> 00:39:19.440

Employees in the.

169

00:39:21.880 --> 00:39:24.560

Pain ratio. So what is our plan for.

170

00:39:26.480 --> 00:39:45.960

Manpower rationalization? Because the company many capital market companies are very ongoing their expansion of business. So I think this to be noticed and finally cost optimization model because I noticed final costs near about zero point ten lakhs where last year was zero point four lakhs.

171

00:39:46.360 --> 00:39:59.400

And also other expense increased sixty one point seventy two lakhs other than fifty four point forty three lakhs. In respect to revenue because last year revenue was marginally higher. But.

172

00:40:01.640 --> 00:40:17.920

Cost is very lower. So think about this cost optimization model and very good company. I have full support for the allition and paying to God everybody good help and prosperated by the leadership of our company's inter management team thanking yourself.

173

00:40:20.720 --> 00:40:27.960
